

Commonwealth of Massachusetts  
**Town of Petersham**

**Greg Wade  
Tree Warden**

**Public Shade Tree Removal Permit**

This Shade Tree Removal Permit is hereby issued in accordance with Massachusetts General Laws, Chapter 87, Public Shade Tree Law, Section 3 (Cutting of Public Shade Trees; Hearing; Damages). The applicant is National Grid, Hazard Tree Mitigation Program, c/o Luke Fiske, 939 Southbridge Street, Worcester, MA01610.

The program included a tree-by-tree hazard assessment of the main three-phase lines in Petersham. Town-owned trees that are hazardous and/or prone to failure, pose a threat to public safety and endanger the reliability of the main distribution lines along Hardwick Rd, Spring St, Popplecamp Rd and Sunset Ln were identified for removal or pruning to reduce or eliminate their risk of failure.

Two-hundred fifty-seven (257) town-owned trees were identified by National Grid arborists for removal and Sixteen (16) for pruning.

I hereby grant permission to National Grid to remove or prune trees per specific list attached to this permit. I understand that National Grid does not grind or remove stumps as part of this program and that remaining stumps height will be left cut as close to the ground as possible.
