ON THE COVER

A small structure, a big impact

The Petersham Bandstand on the Common is a good example of how a fine, little structure placed in the right spot can have a profound impact on life. Bandstands and gazebos are sprinkled across America's public spaces offering a simple and typically elegant place to elevate and enjoy life's experiences.

Gatherings of all sort have found a welcome home at the Petersham Bandstand — Concerts, memorial services, holiday events, special community events of every stripe, weddings, graduation and prom portrait days, birthdays, reunions, meetings, little ones joyfully running about, and just simple lunch & conversation have all graced the Bandstand thru its 108 years.

Petersham's Bandstand was built in 1914 thanks to donations from private citizens. Boston-based architect John Ames was contracted for its design. Along with determining just the right size and aesthetics for the Bandstand, the architect and clientele emphasized acoustics as by that time the Petersham Brass Band had been providing community concerts since 1885.

Prior to the current 1914 structure, a high open platform bandstand was located on the Common near the corner of Common & West Streets; users, including the Petersham Brass Band members with their variety of instruments, climbed a tall ladder set thru a trap door.

Even little public buildings such as the Bandstand require care and maintenance. Petersham residents and taxpayers have been mindful of keeping this structure in good stead including its most recent repairs in Fall 2021.

Nestled under trees surrounding the Bandstand are memorial stones and flags honoring those who served in times of war. Individual plaques honor those who died serving the country.

The community is very grateful to the Petersham Lions for their annual care of the public benches on the Common. In Spring 2022 the Lions generously accomplished full burnishing and repairs of each bench.

The Bandstand has inspired many artists over the years. A small sampling here includes a watercolor by Barbara Ellis, a painting by Dorothy Eaton (on display in Town Hall as a loan from the Buell Family), a *New Yorker* magazine illustration by Susan Flint, and a 1969 *Yankee Magazine* cover image by Maxwell Mays.

--Glossary

Cherry Sheet: The Cherry Sheet is the official notification by the state Commissioner of Revenue to municipalities and school districts of estimated state aid to be paid and charges to be assessed over the next fiscal year. As the state budget process unfolds updated local aid proposals are posted. Final Cherry Sheets are issued once the state budget is enacted by the Legislature and approved by the Governor. In the past, the Cherry Sheet came to the towns on cherry red paper, now it is all electronic.

Debt Exclusion: A debt exclusion is meant to finance a particular project. Property taxes will increase for a specific period of time – during the life of the loan – to cover the cost of the project. When the bond on that project is paid off, the increase to your town's levy limit is revoked. The levy limit is the total overall amount any community is allowed to raise through taxation. So the temporary tax increase for that project goes away. The question of using a debt exclusion must ultimately be approved by voters at a ballot election.

Enterprise Fund: A fund that provides goods or services to the public for a fee that makes the entity self-supporting.

Excess Levy Capacity: If a community sets its property tax levy, exclusive of amounts that are subject to debt exclusions, below its levy limit, the difference between those is referred to as excess levy capacity. This is an additional amount of money a community can choose to raise for that given year and still remain under the Proposition 2 1/2 levy limit.

Free Cash: This is the money that the town appropriated at town meeting the year before that was unspent during the fiscal year. At the end of the fiscal year it is accounted for and the books are sent to the State Department of Revenue (DOR) to be certified. Once the amount is certified it can be used either during the current fiscal year or in the budget for the next year. It can only be appropriated by Town Meeting. If it is not appropriated, it goes back into Free Cash for the next year. While the amount varies considerably from year to year, typically we have around \$100,000 in Free Cash annually.

Levy Limit: The levy limit is the maximum amount a community can tax in a given year, exclusive of any amounts that are voted as debt excluded. The annual increase in the levy limit in any given year is limited to 2.5% by State law.

Property Tax Levy: The property tax levy is the revenue a community actually raises through real and personal property taxes in a given year. The property tax levy is the largest source of revenue for Petersham. This figure includes previously voted commitments to projects utilizing debt and capital exclusions such as the school construction projects and vehicle purchases.

ReCap Sheet: A document submitted by cities and towns to the DOR in order to set the local property tax rate. The recap sheet shows all estimated revenues and actual appropriations that affect the property tax rate.

Reserve Fund: Every year, the town sets aside a reserve fund that can be appropriated by the Advisory Finance Committee together with the Selectboard at their discretion. This allows for unanticipated expenditures by any department that are not provided for in the budget. The advantage of this is that we do not have to call a Special Town Meeting to meet these expenses, but it allows for only limited amount of money to be used. If we need more we need to call a Town Meeting.

Revolving Fund: Certain departments collect fees for a particular service, such as the Board of Health will collect a fee for the design review of a septic system. The Board may then hire a professional septic engineer to review the plans to make sure they are in compliance with the state's Title 5 Regulations and local codes. The fees are put into the revolving funds and the inspector's fee is paid out of this fund.

Stabilization Fund: This is an amount of money that the town sets aside to use if there are emergency needs or if there are capital outlay expenses that need to be covered. It can only be appropriated at a Town Meeting by a 2/3 vote of the voters present at the meeting.

Report by the Petersham Advisory Finance Committee

For the Special and Annual Town Meetings on June 6, 2022 / *For Fiscal Year 2023*

I. Introduction

A number of unusual challenges presented themselves in the course of preparing the budget for fiscal year 2023. As outlined below, the Advisory Finance Committee is making its recommendations contained in this report in response to those circumstances. Two of the major challenges this budget season include the following:

A. Increase in Petersham's Mahar Regional School District Assessment

Due to an increase in the number of Petersham students enrolled in the Mahar Regional School District and lower student enrollments from other towns, Petersham's assessment rose 20%, an increase of \$172,266, over last year's assessment. To put this increase in perspective, over the last ten years, Petersham has not experienced an annual increase of this magnitude resulting from increases in Petersham's student enrollment and decreases in student enrollment from other towns in the district.

At the outset of the budget deliberations, the increased Mahar assessment initially signaled a possible Proposition 2½ override and prompted the review of various cost-saving measures and the identification of possible sources of available funds to offset this increase. Among other things, the Selectboard communicated with the Board of Assessors to determine the amounts of funds that had accumulated in the Assessor's Overlay Excess Account. Over the last number of years, the town budgeted \$50,000 annually for the Overlay Excess Account to accommodate any granted abatements and exemptions and in anticipation of a resolution of litigation commenced by utilities regarding the taxation of utility poles. The Board of Assessors reported that there is roughly \$269,000 in the Overlay Excess Account. Abatements and exemptions granted over the last five years did not exceed \$22,000 in any given year. As set forth further in this budget report, the Advisory Finance Committee recommends utilizing \$235,000 from the Overlay Excess Account to offset the increase in this year's Mahar Regional School District assessment and for other needs.

B. Shortfall of \$477,533 in the amount appropriated for the Petersham Center School at the FY22 Annual Town Meeting on June 21, 2021

As part of the deliberations of the Capital Improvement Planning Committee in April 2022, a question arose as to why the MA Department of Revenue reported that the town had roughly \$678,000 in unused levy capacity, i.e., unused tax potential, rather than \$246,474 as projected in the FY22 budget. Members of the Selectboard and the Advisory Finance Committee investigated this discrepancy and determined that while the FY22 Budget accurately forecast revenue and spending, the actual motion regarding Article 19 pertaining to the Petersham Center School brought before the Annual Town Meeting contained an amount that did not include the amount the town receives in Chapter 70 funds for education. The Budget Report of the Petersham Advisory Finance Committee correctly set the appropriation for the Petersham Center School at \$1,645,350. The motion put before the Town Meeting was for \$1,207,817. The difference between these two numbers, \$437,533, is the amount that the town received in Chapter 70 reimbursement.

Part of the confusion regarding these figures stems from the past practice of the Petersham Center School stating its budget request as its total budget minus the amount the town receives in Chapter 70 funds. Neither the Selectboard, the Petersham Advisory Finance Committee, or any other town official or personnel caught the error in the motion at the time of the Annual Town Meeting.

Relying on the dollar figure stated and approved in the motion for Article 19 as required and not in the budget report, the Board of Assessors annual recap work resulted in a lower tax rate creating a tax break for property owners in the second semi-annual tax bill for FY22 and the upcoming preliminary tax bill for FY23.

The town is prohibited from deficit spending in connection with the schools, so the Town must use available funds to make up the \$437,533 shortfall. As set forth further in the budget report, the Advisory Finance Committee recommends utilizing a portion of the Stabilization Fund to fill this gap at the Special Town Meeting.

II. Special Town Meeting

Article 2 (Nichewaug Demolition): As a result of a determination by bond counsel that the town failed to have the Nichewaug demolition brought before the Capital Improvement Planning Committee (CIPC) prior to the December 6, 2021 Special Town Meeting vote and in not timely issuing a postcard notice, this Article is again brought before the town, this time having been approved by the CIPC and with the requisite postcard having been mailed. Passage of this Article will have no impact on the town's FY23 budget, but for the reasons set forth in its report for the Special Town Meeting held on December 6, 2021, the AFC recommends its passage.

Article 3 (Retirement of Chief of Police) involves fulfilling the town's contractual obligations stemming from the retirement of Petersham's Police Chief, and the AFC recommends its passage.

Article 4 (Snow and Ice Account Deficit) involves eliminating the FY22 Snow and Ice Account deficit, and the AFC recommends its passage.

Article 5 (Petersham Center School Shortfall) involves meeting the town's obligation to fund the remaining amount of the FY22 appropriation for the Petersham Center School, and the AFC recommends its passage.

Article 6 (Changes in Chapter 90 Reimbursement creating a deficit) stems from mid year changes the Commonwealth has made to its model for use of Chapter 90 highway funds and for other necessary highway salary adjustments, and AFC recommends its passage.

III. Annual Town Meeting – The FY2023 Operating Budget

Overall, the town's general operating budget (not including Special Articles) is \$401,423 more than last year, an increase of about 9.8%, broken down as follows:

> continued on next page

Report by the Petersham Advisory Finance Committee – continued

For Special and Annual Town Meeting on June 6, 2022 / For Fiscal Year 2023

1. The Petersham Center School (PCS) budget request for Fiscal Year 2023 is \$1,734,698. This represents an increase of \$89,348 or a 5.4% rise in Petersham's assessment from the prior year.
2. The Ralph C. Mahar Regional School (Mahar) budget request for Fiscal Year 2023 is \$1,034,949. This represents an increase of \$172,266, a 20% increase in Petersham's assessment from the prior year.
3. The Montachusett Technical School District budget request for Fiscal Year 2023 is \$93,768. This represents an increase of \$31,907, a 51% rise in Petersham's assessment from the prior year, largely due to an increased enrollment of Petersham students.
4. The Selectboard's Budget request for Fiscal Year 2023 is \$1,622,621. This represents an increase of \$108,248, a 7.1% rise in the appropriation from the prior year.

Special Articles and Free Cash

The total amount requested for Special Articles is \$302,248. This represents a decrease of \$136,473, a 31% decrease in the appropriation from FY22. Last year's appropriation was \$438,721. Articles 21 through 25 pertain to ongoing debt obligations and the AFC recommends their passage.

Article 26 (Board of Assessors' Full Measure and List of Real Estate and Personal Property) is for year three of a five-year commitment to comply with state law, and the AFC recommends its passage.

Article 27 (Deposit into the Cemetery Repair Fund) does not involve a tax appropriation, and the AFC recommends its passage.

Article 28 (Reserve Fund) earmarks \$30,000 for the Reserve Fund for FY2023, and the AFC recommends its passage.

Article 29 (Brass Band Concerts) raises and appropriates \$1,800 for six (6) concerts, and the AFC identifies this Article 29 as voter preference.

Article 30 (Broadband Operations) allocates \$30,000 from broadband subscriber's fees to the Petersham Municipal Light Plant Broadband Enterprise Fund. While this does not strictly fall within the budget, the vote at town meeting is required by the Commonwealth, and the AFC recommends its passage.

Article 31 (Stabilization Fund) authorizes the depositing of funds into the Stabilization Fund. Should part of the Stabilization Fund be used to meet the town's obligations as part of the Special Town Meeting, the AFC recommends taking no action on this article at this time.

Article 32 (Zoning By-laws Change Regarding Selectboard), **Article 33** (General By-laws Change Regarding Animal Control Officer), **Article 34** (General By-laws Regarding Statutory Reference Regarding Animal Control Officer), **Article 35** (General By-laws Change Regarding Constable), **Article 36**, (Zoning By-laws Changes Regarding Section 18. Solar Electric Installations) are not budget-related items, and the AFC has identified them as voter preference.

The AFC has identified **Article 37** (Citizen’s Petition Article Regarding the Petersham Friday Market) as voter preference.

The AFC has identified **Article 38** (Citizen’s Petition Article Regarding the State Flag and Seal of Massachusetts) as voter preference.

Free Cash available this year is set at \$138,669. With respect to the Special Articles of the Special Town Meeting, we have recommended using \$18,098 to go toward fulfilling the town’s obligations concerning the retirement of the Chief of Police, \$87,569 to go toward the PCS Deficit, and \$17,209 to pay the shortfall created by the commonwealth’s changes in chapter 90 reimbursements. With respect to the Special Articles of the Annual Town Meeting, we have recommended using the remaining \$15,793 in Free Cash to go toward the debt service for the Mahar RSD Construction loan.

The amount available this year from the Assessor’s Excess Overlay Account is \$225,000. With respect to the Special Articles of the Special Town Meeting, we have recommended using \$8,142 to go toward fulfilling the town’s obligations concerning the retirement of the Chief of Police, \$31,635 to close the FY22 Snow Removal account, and \$78,923 to go toward the PCS deficit. With respect to the Special Articles of the Annual Town Meeting, we have recommended using \$6,668 toward the debt service for the Mahar RSD Construction loan, \$41,150 toward debt service for the Nichewaug Hazardous Material Abatement loan, \$39,600 for the debt service of the Fire Department Pumper Truck, and \$28,882 for the debt service for the Broadband make-ready (BB1) loan.

Conclusion

The Fiscal Year 2023 budget offered for your consideration is intended to limit tax appropriations to provide for essential services and to meet current obligations within the Proposition 2½ levy limit. We typically set a goal of keeping the total budget (the general budget + the special articles) approximately \$150,000 under the levy limit. Maintaining such “excess levy capacity” enables the Town to deal with late-breaking revenue shortfalls. This year given the increase in the Mahar RSD assessment and the PCS shortfall described above, you will see a surplus at the bottom of the Report page of approximately \$40,253.

At our Annual and Special Town meetings, voters raise and appropriate funds for Town services and expenses. The money voters agree to raise directly determines property taxes. The AFC seeks to recommend articles based on how the requested appropriations affect the fiscal health of the Town and the well-being of its residents. Ultimately, however, each of us must decide how much we are willing to pay for these services and expenses. In that sense, every article at every meeting is Voter Preference and we urge you to consider all issues carefully when making an informed decision.

BUDGET NOTES:

As currently known, Petersham’s town-wide fiber optic network requires a regular annual operating expense budget of approx. \$24,000.

Expenses include: Required annual Surety Bonds for both utilities (Verizon and National Grid) currently at \$3,025/each [\$6,050]; required annual Utility Pole Rental Fees collected by Verizon [\$10,000 +/-]; Hub Room Generator maintenance package [\$1,000]; support for Hazardous Tree Work to maintain cable lines for customers [\$5,000]; misc. costs [\$2,000] = \$20,000. (See attached.)

Surety Bond fees and Pole Rental charges will likely incrementally increase over time (for example, the MLP Board saw a small increase FY21 to FY22 for the required utility surety bonds, so setting of Subscriber Fee Rates and overall budgeting needs to allow cushion for those increases. At this time, the operating budget does not include any annual debt payments to service the project construction loan.

It is the policy of the MLP Board to set the subscriber’s monthly fee as low as possible for customers while also covering annual network operating costs. With two full years of operations now completed and clear knowledge of network costs, the Board will continue with fee review and adjustments.

Capital Improvement Planning Committee Report

Report of the Capital Improvement Planning Committee

Fiscal Year 2023

The Capital Improvement Planning Committee would like to recommend the following budget for Capital Improvement items for Fiscal Year 2023. In addition, the CIPC has also included its endorsement of an additional project that has been in the making for the past 10 years. All requests were evaluated on need, cost effectiveness, quality of improvement, completeness and availability of funds.

The Capital Improvement Planning Committee voted to endorse the demolition of the Maria Assumpta Academy/Nichewaug Inn. This carries a budgeted cost of \$721,000.00. The project will create more open space on the common.

The following items are recommended for inclusion in the Annual Town Meeting Warrant for June of 2022 for the Fiscal Year 2023 Capital Plan.

Police Department – Purchase of two Vehicles	
1 Four Wheel Drive and One SUV and trade-in	
of 1 Crew Cab pickup truck cruiser	\$ 85,952.00
Town Clerk – Town Records Preservation	\$ 10,000.00
Petersham Center School – Gutter Replacement	\$ 27,965.00

The CIPC believes that this Capital Budget is reasonable and necessary. We would like to thank Chief Buck for the detailed presentation with numerous options for the Committee to consider in arriving at our recommendation for the Police Department. The Town Clerk's request is a continuation of her multi-year project to preserve the Town's Vital Records from deteriorating to a point that they will be unusable. Finally, the school seeks to replace the wooden gutters on the original portion of the building with aluminum gutters. The design should make the change hardly noticeable and will blend with the gutters on the new section of the building.

The CIPC hopes that the Selectboard, Finance Committee and Townspeople will see the need for these items and support our recommendations that we feel are affordable given the information supplied to the committee from various sources.

Respectfully Submitted,

Dana Robinson, Ch.

About the Consent Calendar for Annual Town Meeting

A number of years ago, the Selectboard and the Moderator implemented a "Consent Calendar." This is part of an effort to make our Town Meeting more productive and save time for discussion of the key issues.

Each year there are a number of Warrant Articles for which past experience suggests that the action will be routine, non-controversial, and predictable. At this Annual Meeting, these Articles will be selected for inclusion in the Consent Calendar. **As one of the first items of business, there will be a motion to take all of these Articles as printed in this Warrant (see Articles 2–18 on following pages 19–21) and act upon these as a group by a single, brief, affirmative main motion, referred to as the Consent Calendar.**

The use of the Consent Calendar speeds the passage of Warrant Articles which the Selectboard and Moderator, in consultation with Town Counsel and the Advisory Finance Committee, believe should generate no controversy and can be properly voted without debate.

At the Motion of the Consent Calendar, the Moderator will call out the number of each of the Articles, one by one. If any voter has doubt about passing any Motion, or wishes an explanation of any Article included in the Consent Calendar, the voter should say the word "Hold" in a loud voice when the Article number is called by the Moderator. The Moderator will then inquire as to whether the request to hold is for a question or for debate. If the purpose of the request was merely to ask a question, an attempt to obtain a satisfactory answer will be made, and if this occurs the Article will remain on the Consent Calendar. If the purpose of the request was to hold the Article for debate, the Article will be dropped from the Consent Calendar and restored to its original place in the Warrant to be brought up, debated, and voted on in the usual way.

After calling the individual Articles on the Consent Calendar, the Moderator will ask that all Articles remaining be PASSED AS A UNIT by a unanimous vote after a brief affirmative main Motion is made inclusive of all Articles remaining on the Consent Calendar.

No voter should hesitate to exercise their right to remove an Article from the Consent Calendar for discussion in the regular Warrant. It is the view of the voters as to the need for debate that is supreme, not that of the Town officials who prepared the Consent Calendar. It is hoped that voters will remove Articles from the Consent Calendar only in cases of genuine concern.

**THE CONSENT CALENDAR WILL BE TAKEN UP AS ONE OF THE
FIRST ORDERS OF BUSINESS AT THE ANNUAL TOWN MEETING.**

As noted, all Special and Annual Town Meeting Articles are found in this Warrant (see pages 16–21). Please review the proposed Articles for the Consent Calendar, the regular Warrant Articles, and the Advisory Finance Committee comments which follow.

Please do your homework before coming to Town Meeting. If you have any questions about the Articles included in the Consent Calendar, regular Warrant, motions, or procedures, please feel free to call the Administrative Coordinator (978-724-3353) or the Moderator (978-724-0400) before the Meeting.

The voters at Petersham Annual Town Meeting will also be asked by the Moderator at the beginning of the Meeting to vote the following action: That on Articles which require a 2/3s vote, the Moderator will not be required to take an actual count, again to save time, unless the Moderator so chooses. A test vote may, or may not, be taken to determine whether the binding vote could be unanimous. If not, a call for those opposed may be taken first and counted and those voting in the affirmative would then be called for and the count would be estimated. However, if at any time seven (7) voters question the count, an actual count will be taken.

CITIZEN'S PETITION ARTICLE

Resolution in Support of Changing the State Flag and Seal of Massachusetts

Whereas the history of the State of Massachusetts is replete with instances of conflict between the European Colonists and the Native Nations of the region, who first extended the hand of friendship to the Colonists on their shores in 1620, and helped them to survive starvation during the settlers' first winters on their land;

Whereas members of the Native Nation for whom the State of Massachusetts is named were ambushed and killed by Myles Standish, first commander of the Plymouth Colony, in April of 1623, barely two years after the Pilgrims arrived;

Whereas the Colonial broadsword held by a white hand above the head of the Native man on the Massachusetts State Flag and Seal is modeled after Myles Standish's own broadsword, borrowed for that purpose from the Pilgrim Hall in Plymouth by the illustrator Edmund Garrett in 1884;

Whereas the belt binding the Native's cloak on the Flag and Seal is modeled after a belt worn by Metacomet, known to the English as King Philip, who was among the Wampanoag leaders who resorted to a mutually destructive war in 1675–76 in defense of Native lands against Colonial encroachment;

Whereas the proportions of the body of the Native man in the Flag and Seal were taken from a Native skeleton unearthed in Winthrop, the bow modeled after a bow taken from a Native man shot and killed by a colonist in Sudbury in 1665, and the facial features taken from a photograph of an Ojibwe chief from Great Falls, Montana, considered by the illustrator to be a "fine specimen of an Indian," though not from Massachusetts;

Whereas the history of relations between Massachusetts since Colonial times and the Native Nations who continue to live within its borders includes the forced internment of thousands of so-called "praying Indians" on Deer Island, in Boston Harbor, where they died by the hundreds of exposure in 1675, the enslavement in Boston, Bermuda, and the Caribbean Islands, the offering of 40 pounds sterling as bounty for the scalps of Native men, women and children in Massachusetts beginning in 1686, increased to 100 pounds sterling for the scalps of Native adult males by 1722, half that amount for Native women and children;

Whereas Native Nations within the boundaries of Massachusetts were legally considered wards of the state until the nonviolent action of the so-called Mashpee Rebellion of 1833 led to the granting of Native self-rule by the Massachusetts legislature in 1834, as if the sovereign right of Native self-government was the Massachusetts legislature's to confer;

Whereas Native Americans were legally prohibited from even stepping foot into Boston from 1675 until 2004, when that law was finally repealed;

Whereas the 400th anniversary of the landing of the Colonists at Plymouth Plantation, which gave rise to the long chain of genocidal wars and deliberate policies of cultural destruction against Native Nations of this continent, occurred in the year 2020, affording every citizen of the Commonwealth a chance to reflect upon this history and come to an appreciation of the need for better relations between the descendants of the Colonial immigrants and the Native Nations of the Commonwealth;

Whereas the land area now known as the Town of Petersham shares a rich Native history with modern tribal Nations like the Nipmuc, who inhabited this area for thousands of years before the first colonial settlers arrived, in 1733;

Now, therefore, be it resolved, that the Town of Petersham hereby adopts this resolution in support of the work of the Special Commission Relative to the Seal and Motto of the Commonwealth, established by a Resolve of the General Court in 2020 and appointed by the Governor to recommend changes to the current flag and seal of Massachusetts, and in support of a new seal and motto for the Commonwealth that may better reflect our aspirations for harmonious and respectful relations between all people who now call Massachusetts home.

The town clerk shall forward a copy of this resolution to Sen. Marc Pacheco and Rep. Antonio Cabral, co-chairs of the Joint Committee on State Administration, who serve as members of the Special Commission Relative to the Seal and Motto of the Commonwealth, and to Sen. Anne Gobi and Rep. Susannah Whipps, with the request that they continue their support for the work of the aforementioned Special Commission.
